## Green views a Plenty at Riverstone

**D**OREEN'S latest estate aims to attract buyers through its leafy location.

Riverstone, at Plenty River, claims all homes in the estate will be within 150m of lush, green open space, walking trails and bike paths.

Developed by the Satterley Property Group, Riverstone is less than 30km from Melbourne's CBD and close to schools, shopping centres and tranquil parklands.

The first home sites are now selling, ranging in size from 345sq m to 602sq m.

The estate is opposite the Plenty River Estate, which is also being developed by the Satterley Property Group.

Group senior development manager Jack Hoffmann said the estate had received considerable interest "because the area provides buyers with the best of both city and country living".

"Riverstone is only a 10-minute drive from the commercial hubs of Epping and Greensborough, yet it is also ideally positioned for trips to Kinglake National Park, the Yarra Valley wineries and the snowfields," he said.

The Satterley Property Group has sold more than 50,000 lots from more than 130 residential developments.

The Plenty River Sales and Information Centre is at the corner of Bridge Inn Rd and Resort

Boulevard, and is open Saturday to Thursday, from 11am-5pm. Phone Natalie Tekin on 1300 955 529.

Riverstone will feature green spaces
